# THE WORLD OF OTOTO

We believe that something new and exciting can happen at any given moment; that the next great idea is just around the corner, waiting to arrive. We design functional household products with a humorous, ironic, unexpected twist.

The studio's unique products can be found in museums, art galleries and design expos, as well as in home design stores in your area.

Daniel and Ori continue to look for new ideas, with a true passion for creation and the desire to share their work with anyone who appreciates creative design as much as they do.
