About Us

Quy Cup is an Italian brand born in 2016 with the intention of creating innovative solutions in terms shape and design
Using sustainable materials.

As a company founded by two Italians proud of their country, we endeavour to reduce our environmental impact everyday!

Mission

Our mission is to reduce any adverse impact on the environment which is why we design sustainable products.

Abandon the use of everyday polluting materials and get a Quy Cup.

They will help us save the planet!

Designed in Italy

The entire Quy Cup range is conceived, defined and designed in Italy.

The design is awareness: being aware of the present and imagining the future.

Our project aims to create solutions in terms of shape, usability, temperature control and ergonomics using sustainable materials, with the intention of improving an everyday activity making our life simpler and more comfortable whilst respecting the environment.

Pollution generated by disposable plastic

Disposable plastic pollution has become one of the most pressing environmental issues: the production of disposable plastic cups is overwhelming our ability to manage it.

By increasing the consumption of take-away drinks, the problem of waste also increases.

Plastic in numbers, some data:

Half of all the plastic produced was made in the last 15 years alone.

pollution

Production has increased exponentially from 2.3 million tons in 1950 to 448 million tons in 2015.

A figure that is expected to double by 2050.

Coastal countries dispose of approximately 8 million tons of plastic waste ends into the oceans every year.

To put it into perspective, It is equivalent to throwing 5 bags of garbage every feet of coast all over the world.

Why Choose a Quycup:

By using Quycup instead of disposable cups in one year you will help to reduce:

92%

Greenhouse gases released into the environment

99%

Environmental impact with a simple and daily gesture

90%

Water consumption

sustainability

Choose to use a mug made from sustainable materials, which you can reuse as many times as you want.

In this way you contribute to the fight against single-use plastic waste.

If only 1 million people decide to use the QUYCUP cup even just once a day, we will reduce single-use plastic waste by approximately 75,000,000 pieces.

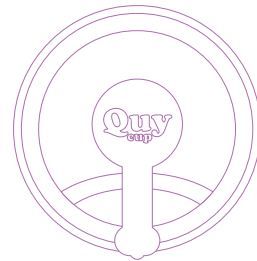

400 ml.

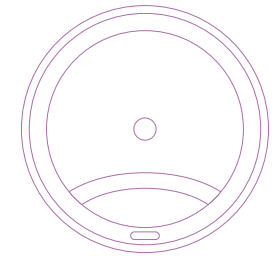

400 ml.

Bamboo cup 400ml.
Holds both hot and cold drinks.
Does not alter the taste of the drink
Dishwasher safe.

The thermal, dripfree lid allows the cup to be used even when on the move avoiding the risk of any of its contents spilling out.

The two lid openings allow the drink to be either sipped or drank through a straw.

Handle with logo significantly studied in order to make the grip more firm.
